LEHIGH UNIVERSITY

## SPRING 2023 PLAYBILL

25TH ANNIVERSARY SEASON

## DEAR FRIENDS,

As Zoellner Arts Center looks to celebrate its past 25 years and envisions the next 25, we want to pause and thank you, our supporters. Each of you helped move us forward during uncertain times. We received your encouragement and generous gifts, and you notably returned to our beautiful arts center.

There are now many opportunities to find joy at Zoellner: *watch* as a thousand public school children visit with awe and wonder; *listen* as choral and music ensembles' notes soar in Baker Hall; *smile* as theatre students busily hone their craft in the Fowler Black Box and

Diamond Theater; *admire* hundreds of students from across campus rehearsing for Dancefest in Butz Lobby; *appreciate* new perspectives at a LUAG exhibit; and *share* in the exuberance of Presenting Series performances by world-class artists such as Michael Feinstein, Postmodern Jukebox, and the New York Philharmonic — who graced our stage this past fall.

This spring offers several multi-disciplinary cultural programs. Third Coast Percussion and Flutronix present their contemporary new composition *Rubix*. The talented guzheng artist Wu Fei joins us for a residency and performs *Hello Gold Mountain* accompanied by students in Lehigh University's Philharmonic and Choir under the direction of Professor Paul Salerni. Easton native and Academy Award winner Roger Ross Williams' film, *Traveling While Black*, is the centerpiece of a free virtual reality experience lobby installation.

Be sure to save April 15, 2023, for the return of our spectacular Gala with The Philadelphia Orchestra and special guest conductor Keith Lockhart, featuring Broadway star Brian Stokes Mitchell, and a free outdoor performance by vertical dance innovators Bandaloop.

How grateful and excited I am to be the Executive Director of Zoellner Arts Center at this moment in time. We celebrate the impact we've had over the last 25 years and look forward to the next 25 of engaging and connecting with you in and beyond our building.

*A Whirlwind of Circus*

An emotive and exhilarating tale about human ingenuity and our natural resources. In *Zephyr - A Whirlwind of Circus* by Cirque Mechanics, audiences will witness the tug of war that exists between man and nature, in the name of progress.

Humans have been harnessing the power of the wind for thousands of years. The beauty and efficacy of that timeless and ingenious process inspired the creative team at Cirque Mechanics to create *Zephyr*, a theatrical circus show that harnesses human power, instead of wind, to generate an energetic acrobatic experience.

Cirque Mechanics has designed and built a performance windmill to serve as the multi-functional mechanical centerpiece of our story. Mounted on a turntable, the windmill combines both modern and older more picturesque elements - with the transformation from one aspect to another providing a change of scenery in real time.

Inspired by a visit to a working windmill in central England, *Zephyr* (which means gentle breeze from the Greek god of the west wind Zephyrus) tells the story of Nigel, mill owner and operator, and his complicated relationship with wind, the natural resource that powers his flour mill. His reliance on wind is tested and in turn he is lured by fuel in the name of progress as his primary energy source. His choices cause elation and disruption, aptly represented by the community the mill serves as dynamic and lyrical circus acts. Nigel grapples with tough choices and unintended outcomes with humor and optimism, which lead to acceptance, coexistence and balance with wind, progress, and his community.

## **Chris Lashua**

Company Founder, Creative Director, Producer, Machine Designer  
Chris Lashua hails from Boston, Massachusetts where he spent most of his youth riding on a BMX bike. He was discovered by Cirque du Soleil and created/performed a BMX bike act that was entirely his own. He was then commissioned to build a “German Wheel” act for the company, an act he performed for several years in Cirque du Soleil’s production of “Quidam”, cementing his reputation as a visionary of circus gadgetry. His engineering chops and creative energy led him to ‘run away’ with his own circus company, Cirque Mechanics.

Chris believes that innovative mechanical apparatus and the relationship between performer and machine sets his company apart and is at the heart of what makes Cirque Mechanics unique. Chris has delivered on this unique approach in the company’s theatrical productions. His innovative machines interact with acrobats, dancers, jugglers, and contortionists on a 1920’s factory floor in *Birdhouse Factory*, a gold rush era town in *Boom Town*, alongside renowned symphonies in the *Orchestra Project*, in a bicycle shop in *Pedal Punk* and inside a circus ring in *42ft A Menagerie of Mechanical Marvels* and now inside a countryside windmill in *Zephyr, A Whirlwind of Circus*.

Chris adapted to the pandemic restrictions by developing and presenting two new projects, an outdoor, socially distanced, pandemic compliant show at a Las Vegas golf course, where guests sat on the green and inside golf carts under the stars titled the *Cirque Mechanics Drive-n-Dine* and a stunning spectacle inside the company’s new custom orange and grey circus big top he called *Cirque Mechanics Under Canvas*.

Chris continues to build on the might of his engineering mind, his passion for the circus and all things mechanical by designing performance apparatus in real world settings that amaze and awe. When Chris is not developing material for a theatrical show, he is building other wacky performance devices for events, like the Paddle ship, a portable stage that not only floats, but also can be navigated by pedal powered paddle wheels and innovative hospitality devices like the Wine Trike, and Buffet Train, which double as pedaled performance platforms and fare delivery apparatus.

Chris is a producing partner of the Vegas International Variety Arts Festival (VIVA Fest), a Founding Board Member of the American

Circus Alliance (ACA), Founding Member of the Producers Alliance of Southern Nevada (PALS) and was a featured guest lecturer at the annual Association for Theater in Higher Education Conference.

**Aida Lashua** - Producer, Collaborator

Aida has been Chris' co-producer and creative partner in life and work for nearly 30 years. Their partnership includes a decade of touring and work experience with Cirque du Soleil (CDS) as well as fifteen years running their own company, Cirque Mechanics. Aida worked for CDS sponsor AT&T, implementing their multi-million-dollar sponsorship agreement on tour, which included product placement, sales staff training and supervision of special sales promotions. She also worked as a Box Office Supervisor and House Manager for CDS, where she trained and managed a staff of sixty and implemented customer service policies, helped develop and revise training manuals and VIP Package tests.

Thanks to her experience with CDS, Aida has an appreciation for the business and a passion for the circus arts. She currently manages the day-to-day operations of Cirque Mechanics and family with poise, she is a creative force and a stabilizing influence. Aida's education and background in direct marketing allows her to use a targeted message approach in the development of the company's website and social media presence. As a mother of three boys, Aida is an avid supporter of the educational component and community outreach programs offered by Cirque Mechanics. She has written the education outreach support materials and study guides, as well as developed the structure of the educational workshops. Aida, who is a native of Puerto Rico, feels most at home near the ocean. She is a contributing writer for CityLife Publications and hopes to one day publish that elusive next great American novel.

## **CREATIVE DESIGN TEAM**

**Aloisia Gavre** - Director, Choreographer

Aloisia Gavre is a Circus Creator, Director, Educator and founding board member of the American Circus Alliance. She co-founded both Troupe Vertigo and Cirque School in Los Angeles in 2009 with a vision to contribute and grow a wider appreciation for the Circus Arts. Her expertise has been used in the films "Water for Elephants" and "Pitch Perfect 2." She was featured on the cover of Dance Teacher Magazine for her expertise in circus-arts. Speaking engagements include TEDx,

Center Theater Group, Directors Lab, Chicago Circus Festival, AYCO and VIVA Fest Las Vegas. Aloysia's creative journey with Cirque Mechanics began at its inception with its premier show, Birdhouse Factory, in 2004. Her expertise of integrating CM trademark architectural machines with circus bodies in motion remains an integral part of the company. A vintage fun memory: in 1999 Aloysia & Chris rode their bikes through Amsterdam after their performance in Quidam to see Lauryn Hill in concert.

**Sean Riley** - Co-Director, Set Designer, Artistic Rigger

Sean Riley has a 20-year career combining suspension, kinetic movement, and design with performance. Through scenic design, rigging design, and mechanical design, often in concert with each other, he creates unique performance environments. Concentrating his design for performance on site-specific and non-traditional work Riley has created installations in collaboration with a wide spectrum of accomplished artists and collaborators. Being known for his bold and often surprising use of space and for large—scale movement, Riley's installations commonly reflect his lifelong obsession with gravity and Newtonian physics. His works have been installed from backyards to Broadway and continue to tour internationally. He is a founding member of Cirque Mechanics and his company Gravity Design, through which he has developed an arsenal of specialized tools, pushing the bounds of performance as well as industrial safety. Riley is the host of the National Geographic Television series "World's Toughest Fixes" and the series "Speed" on Curiosity Stream. Riley lives in a fairy tale in British Columbia with his wife, three boys, and lots of bears. [www.visiblegravity.com](http://www.visiblegravity.com)

Michael has composed network themes for PBS, Amazon Originals, and CNN International among others as well as commercials and promos for a long list of clients.

**Kalin Henning** - Costume Designer

Kalin Henning has spent their life so far bouncing around between theater, acrobatics, and complete and utter confusion. They developed a love for historic costuming early on and was the head costume designer for four different Shakespeare productions before the age of 21. Since then, Kalin has spent their time when not working as a performer, making costumes as a freelance designer, but more recently is expanding their knowledge base by pursuing a degree in mechanical engineering from UNLV's Howard H. Hughes College of Engineering. Kalin cannot decide if the favorite costume they've ever made was an Andolite, or an historically appropriate hand-sewn 1901 ballgown.

**Joe D'emilio** - Lighting Designer

He toured North America and Europe before his fifth birthday and believes that was the foundation for his wanderlust. Zion has always had a penchant for travel, history, and storytelling. He pursued his passion by earning a B.A. in History with a minor in Classics from the University of San Diego, where he studied abroad in Bali, Indonesia and Florence, Italy. He continued his studies earning an M.A. in Classics from the University of Exeter in the U.K., where he interned cataloging antiquities at the British School in Athens, Greece. Zion polishes his story-telling chops as the host of his very own podcast "It's A Classic" where he shares tales based on the classics, making connections to modern day pop culture. Zion has been a part of Cirque Mechanics since childhood and has worked on almost every production. Having been part of the initial trip to the working windmill that inspired Zephyr, he was integral in developing the story concept and advancing the narrative arc. to all the clowns that ever inspired him to be silly. During his career in entertainment, he has been a stilt walker, stunt man, puppeteer, dancer, and author of the much-loved children's book *Captain Tall Tale* [www.CaptainTallTale.com](http://www.CaptainTallTale.com), but above all and in any job, Todd is first and foremost, a clown. Todd would like to thank Cirque Mechanics for welcoming him into their wonderful family of circus freaks, for they have made his boyhood dream of running away with the circus come true!

Some of his most memorable performances to date are performing at the White House for President Obama, years of performing with Circus Flora and performing with Cirque du Soleil as a hoop diver for their first ever Christmas show *T'was the Night Before*. As a kid Chauncey spent many hours building with K'Nex. Recently he was able to build a rotating base for his hoops with over 480 K'Nex.

**Luke Anderson** - Acrobat, Hoop Diver

Luke was born and raised in Oregon. Ever since a young age he was fascinated by extreme sports, but it wasn't until his family moved to Arizona where his interests were able to blossom. At age 13 he started to get into strength training and pushing the boundaries. From there an interest in tumbling, parkour and tricking developed. He would spend all his time after school at the park working on tricks and technique and his very first job was coaching gymnastics

at 15. After realizing he wanted to pursue this path professionally, he went to his first audition for Cirque du Soleil at 19 years old and shortly after joined the show *Volta*, then later toured across Europe as a hoop diver with the show *Luzia*. The last 6 years of live performances and touring travel have nourished his passion for circus and performing. This is his first show with Cirque Mechanics, and he is excited to be learning a new apparatus.

## **ABOUT CIRQUE MECHANICS**

Cirque Mechanics, which calls Las Vegas home, was founded in 2004 by Boston native and German Wheel artist, Chris Lashua, after the success of his collaborative project with the Circus Center of San Francisco, Birdhouse Factory. Cirque Mechanics quickly established itself as a premiere American circus, with its unique approach to performance, inspiring storytelling, and innovative mechanical staging. Spectacle Magazine hailed it as “the greatest contribution to the American circus since Cirque du Soleil”.

Cirque Mechanics, although inspired by modern circus, finds its roots in the mechanical and its heart in the stories of American ingenuity. The shows, rooted in realism, display a raw quality, rarely found in modern circus, that makes their message timeless and relevant. The stories are wrapped in circus acrobatics, mechanical wonders, and a bit of clowning around. Cirque Mechanics applies these principles to their Events and Under Canvas divisions, bringing their brand of unique circus entertainment, awe, and amazement, to corporate and private clients, as well as families inside their custom, orange and gray, big top.

The troupe has created a series of extraordinary touring theatrical productions, *Birdhouse Factory*, *Boom Town*, *Pedal Punk*, the *Orchestra Project*, *42ft – A Menagerie of Mechanical Marvels* and for this season, *Zephyr – A Whirlwind of Circus*.

Our family at Cirque du Soleil and our fellow American circus companies for their commitment to this art form and for continuing to set the bar higher.

We appreciate the ability to tech and launch our tours at home, so a most special thank you to Lori Cobo and the University of Nevada Las Vegas for their continued support of our company, their sponsorship, partnership, and generosity.

The creation process was long and arduous, but extremely rewarding. We had so much fun designing and exploring, training, and rehearsing. Our goal is that you are entertained and our hope that you are moved. Finally thank you to our audiences for venturing once more to the theater, for your loyalty and your faith in our company, for the laughs, the applause, and the appreciation for the circus arts.

# PINKALICIOUS THE MUSICAL

**SUN APR 30 • 1PM**

A musical theatre treat tells the tale of a girl who can't stop eating pink cupcakes despite warnings from her parents. Her pink indulgence lands her at the doctor's office with 'pinkitis', an affliction that turns her pink from head to toe—a dream come true for this pink-loving enthusiast. Alas, Pinkalicious needs a way out of her pink predicament, and joined by her family they find fun, unity and appreciation in the quirks that define us all.
